Bart Malone described Brain as a chemist with DEC when I spoke to him this afternoon to confirm. I have not spoken to Wayne.

Mike, Gary - I assume Brian and Wayne are focused on fish issues, correct? They were not mentioned as attendees this morning

That is the plan although Wayne will be coming from a different location and may not arrive 0900. Thank you for the SOP and we expect to be finished by lunch time

Bart,

Please find the attached SOP's from the recently issued 2012 RAMQAPP. Given the file sizes I could get you the processing and lipids extraction SOP's via email.

We are meeting the Adam Ayers of GE and the lab representatives at 9:00 a.m.

Please confirm for me that Brian Buanno (chemist from your office) and Wayne Richter will also attend.

Please find the Google image attached for the lab address:
